

# Cleaner

CONCENTRATE

- + Multi-Purpose Cleaner for Home & Industrial
- + Controls Odors
- + Tested Proven Results
- + Safe for use around Children & Pets

32 Fl. Oz / 946 ml

**Ingredients:** Filtered & Purified water, vinegar, and natural enzyme cleaners including Protease, Lipase, Cellulase and Amylase.

**Directions:** Spray or foam into drains. Scan QR code for more directions.

**CAUTION:** Avoid getting into the eyes. If there is accidental eye contact, flush eyes thoroughly with cool water. In case of accidental ingestion, seek professional medical assistance. **KEEP OUT OF REACH OF CHILDREN.**

**Rinsability:** Washes off completely in water, does not leave streaks or bead stains. Once rinsed leaves a non-static finish, inhibiting accumulation of dust, grime, or protein matter.

**Enzyme Cleaner:** Digests grease and other organic matter. It cleans and deodorizes floors, walls, chrome and other surfaces not hamred by water. It can be used with pressurized, mechanical, and manual systems, hand sprayers, mops, and cloths. Water temperatures above 65°F will prolong the time required for optimal cleansing.

**Suggested Application Rates:** 1/2 to 2 Oz. Per Qt.
