

INTRODUCING

# GREEN PEST CONTROL

**NO POISONS + NO PESTS**

## *Our Philosophy*

**IPM** (Integrated Pest Management). This simply means that we always Inspect first, develop a plan and treat last. If we need to treat, we use natural products, such as **A +PLUS NATURAL ENZYMES**, where possible.

We use the **A PLUS NATURAL ENZYMES PEST ELIMINATION SYSTEM**. This consists of natural enzymes and cedar products. – [www.aplusnaturalenzymes.com](http://www.aplusnaturalenzymes.com)

We can naturally eliminate cockroaches, bedbugs, carpenter & pavement ants, centipedes, drain & fruit flies, head lice, flies, mosquitoes, bees, wasps, hornets, yellow jackets, moths, fleas, mice, rats & related pests.

Other Services include: WDI (Termite Inspections), Organic odor control & BT (Broadcast Perimeter Treatments) to keep pests out, using **A +PLUS NATURAL ENZYMES CEDAR CHOICE +PRO** cedar oil.

**A-PLUS PEST CONTROL, INC.**

**847.676.3477**
